

Maths Relay

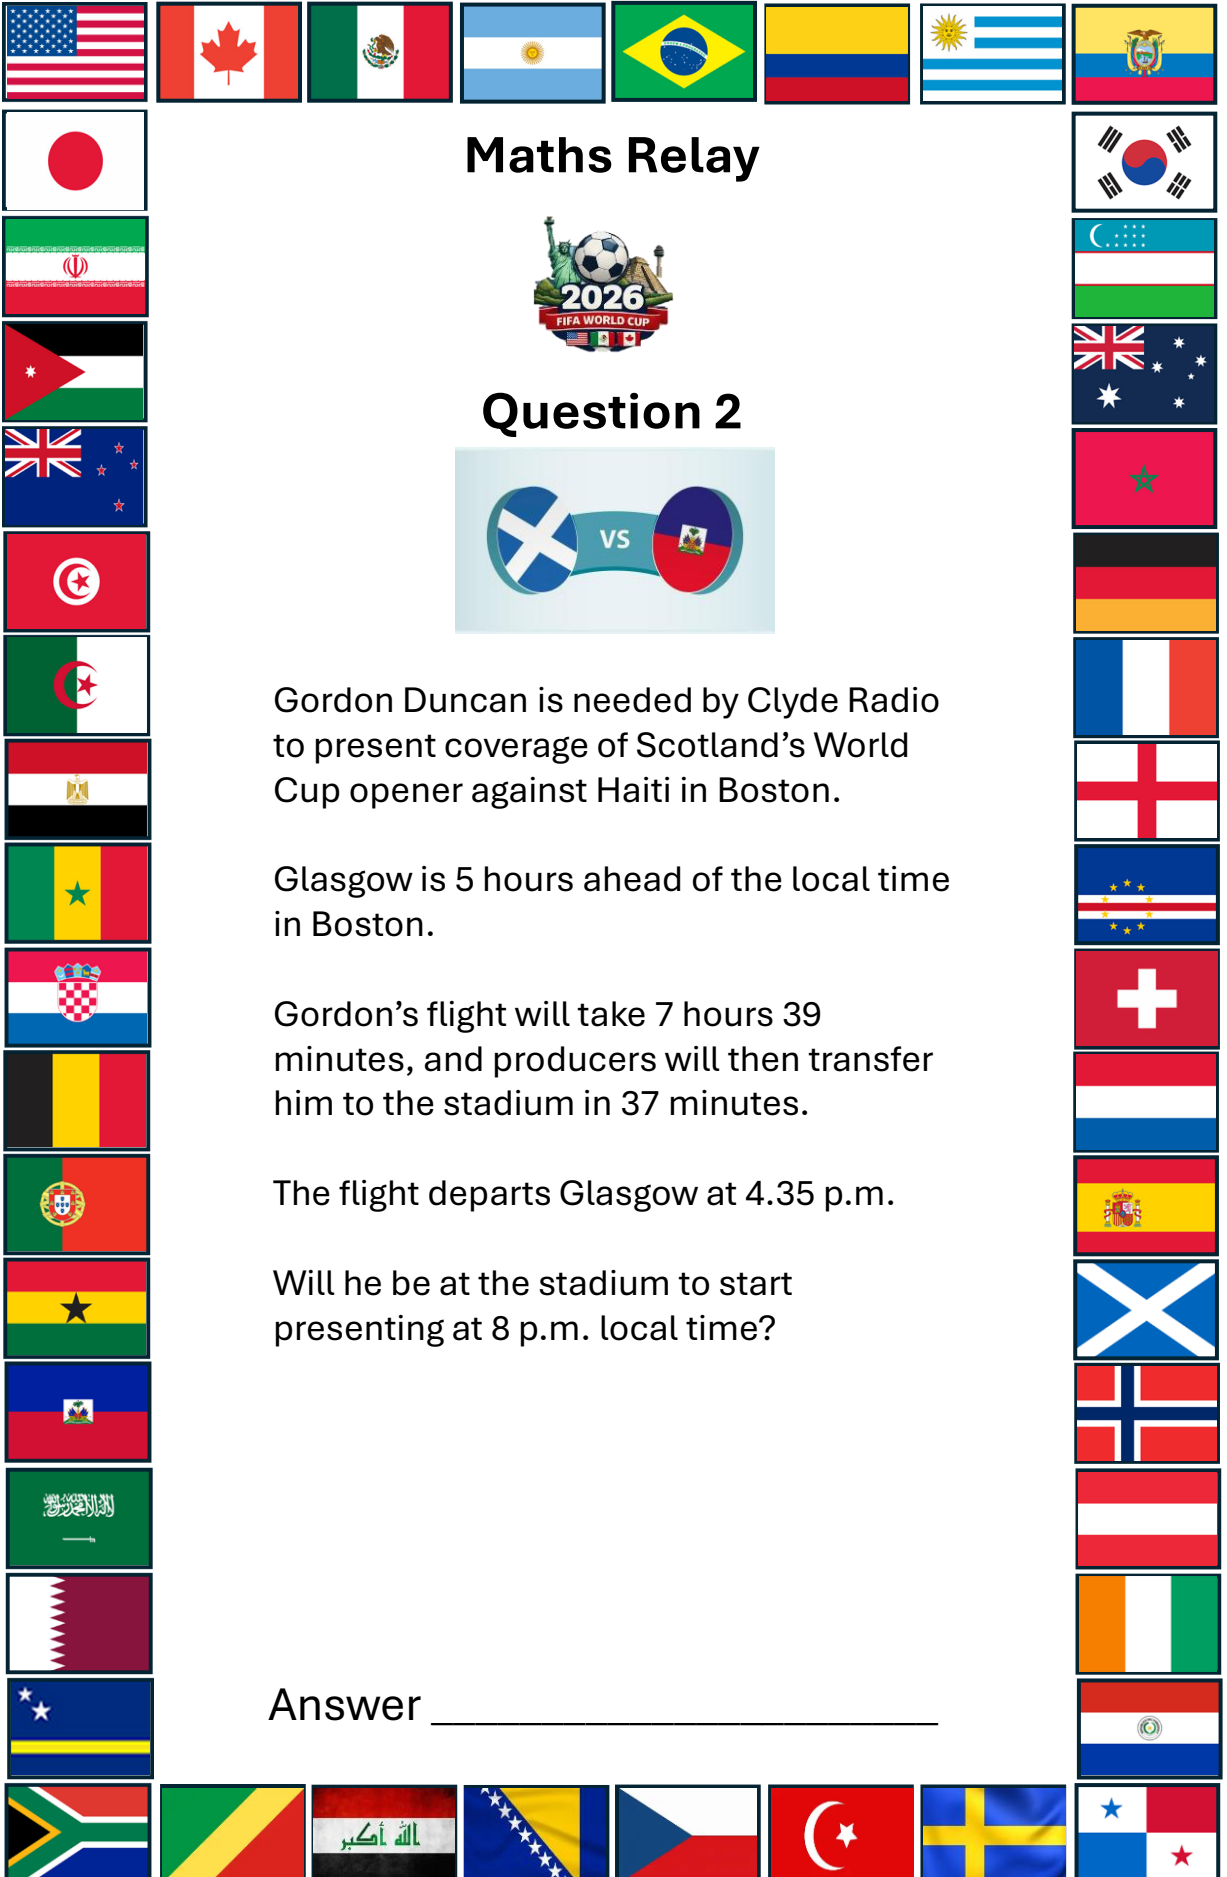

Question 1

City	Capacity
Dallas	94,000
Mexico City	83,000
New York	82,500
Kansas City	73,000
Boston	65,000
Toronto	45,000
Monterrey	52,500
Miami	65,000
Vancouver	54,000
Los Angeles	70,000

Calculate the median capacity.

Answer _____

Maths Relay

Question 2

Gordon Duncan is needed by Clyde Radio to present coverage of Scotland’s World Cup opener against Haiti in Boston.

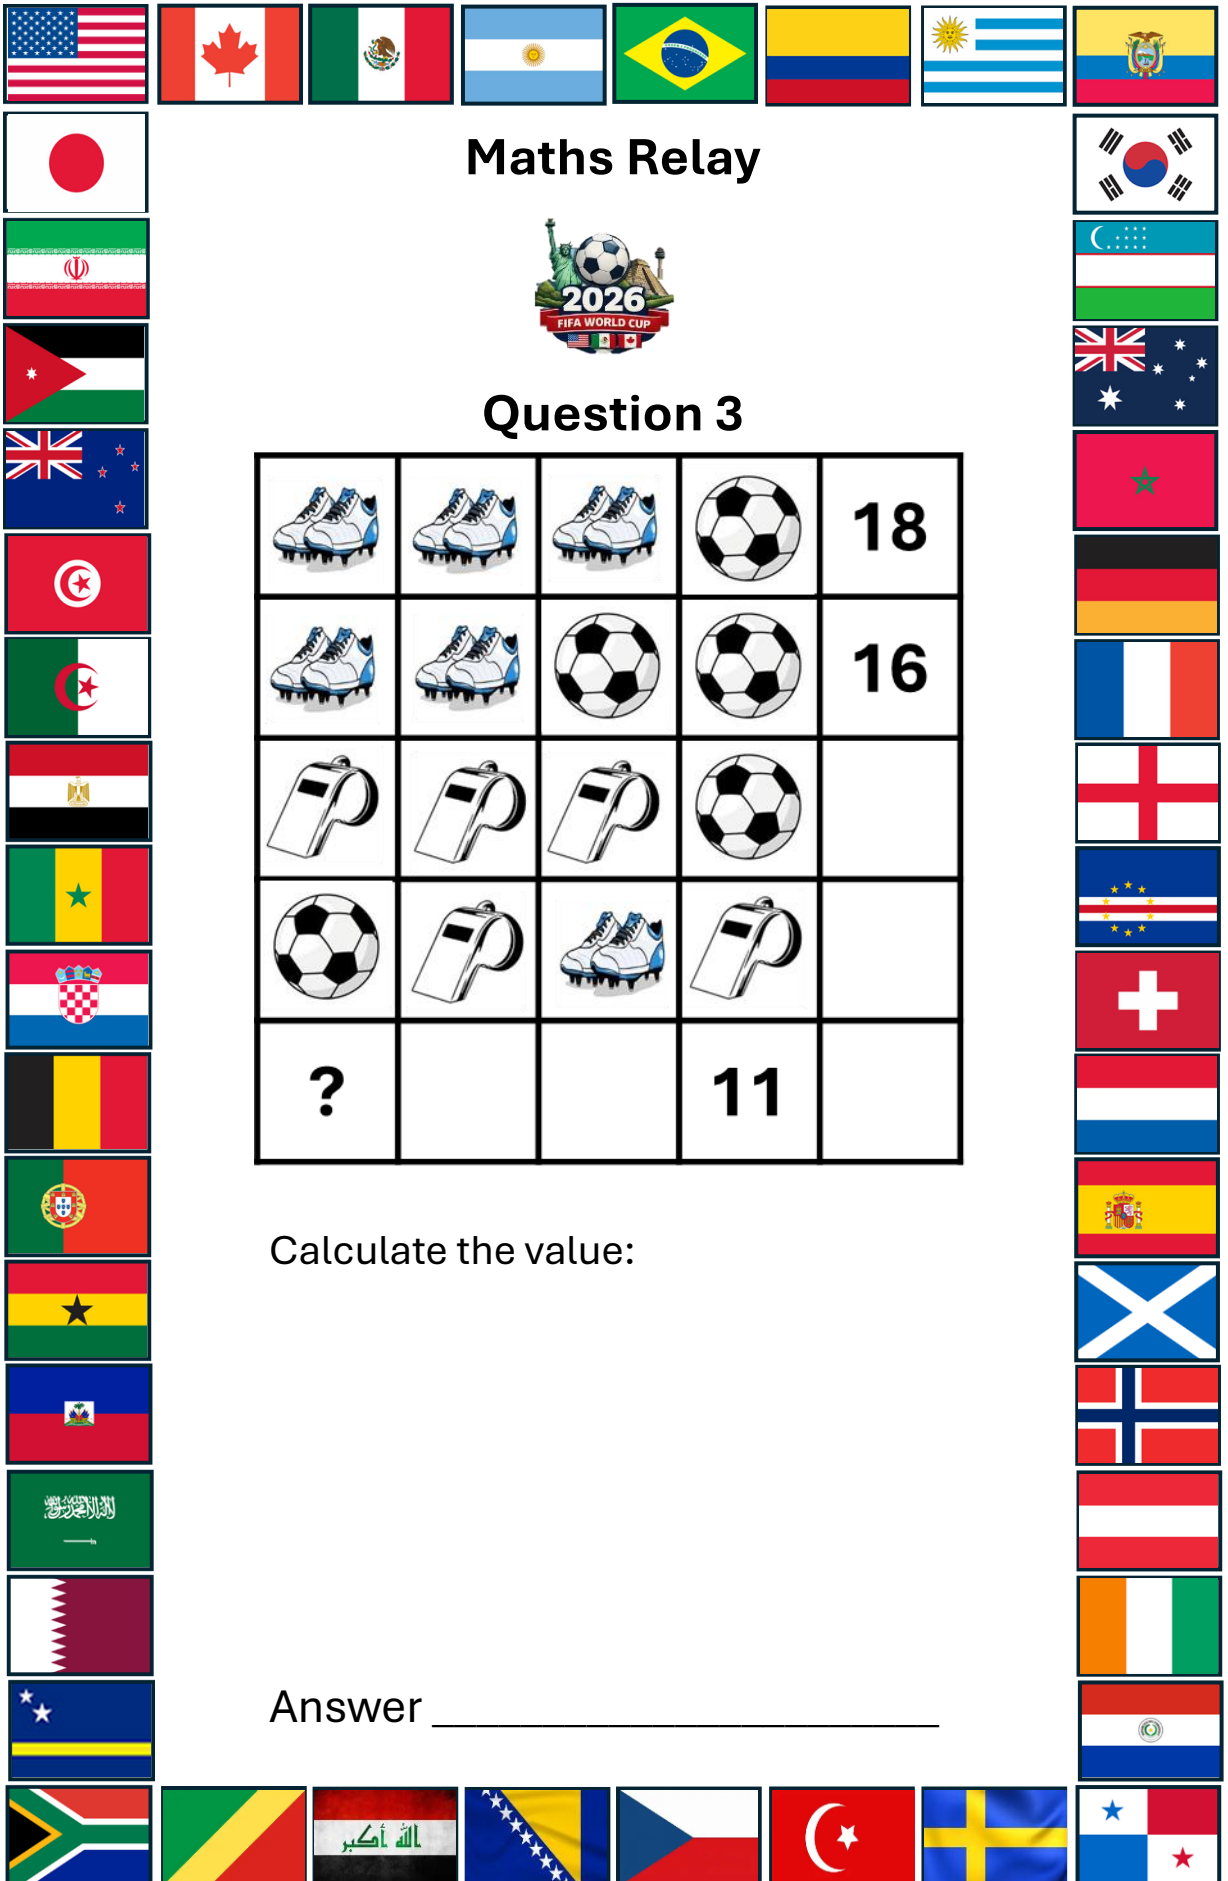

Glasgow is 5 hours ahead of the local time in Boston.

Gordon’s flight will take 7 hours 39 minutes, and producers will then transfer him to the stadium in 37 minutes.

The flight departs Glasgow at 4.35 p.m.

Will he be at the stadium to start presenting at 8 p.m. local time?

Answer _____

Maths Relay

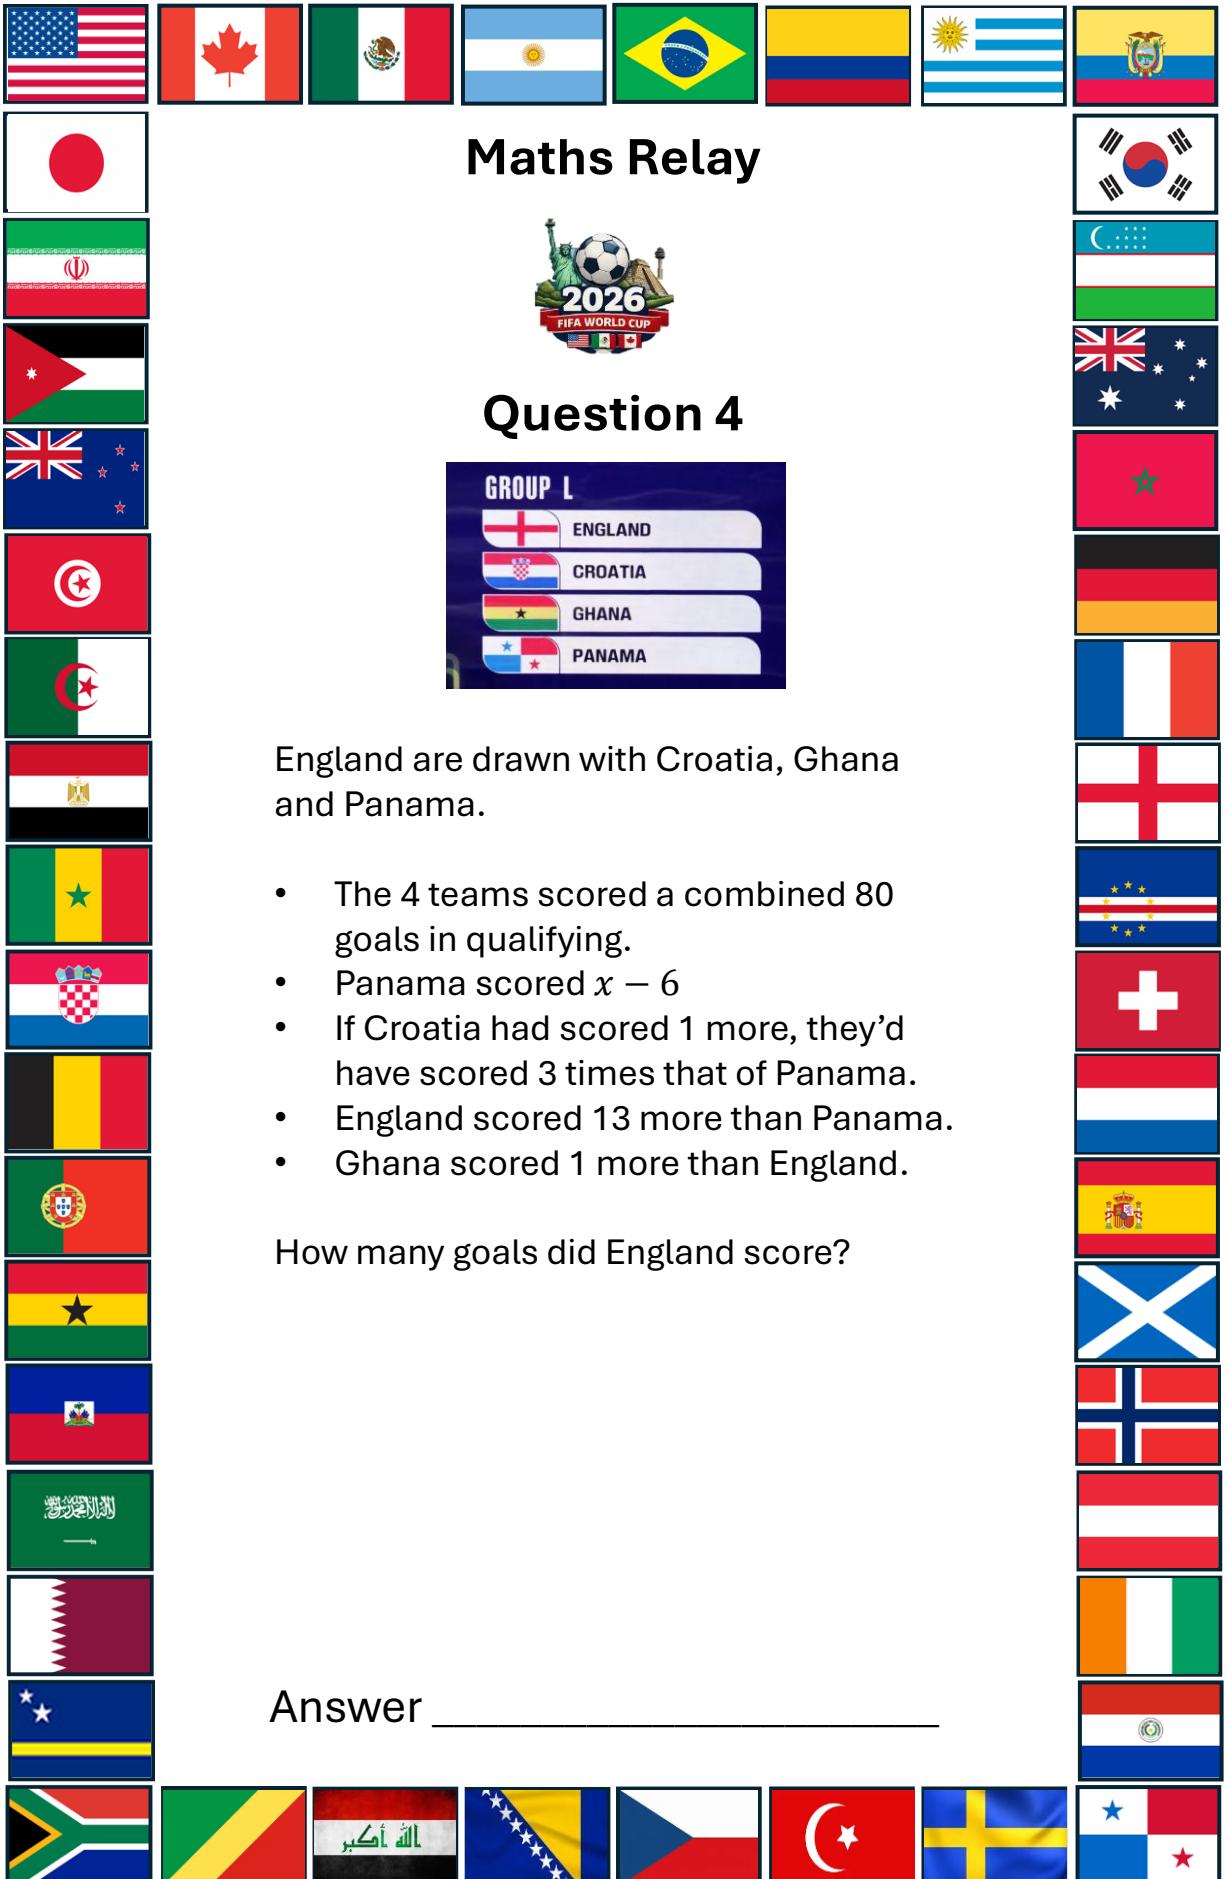

Question 3

				18
				16
				
				
?			11	

Calculate the value:

Answer _____

Maths Relay

Question 4

England are drawn with Croatia, Ghana and Panama.

- The 4 teams scored a combined 80 goals in qualifying.
- Panama scored $x - 6$
- If Croatia had scored 1 more, they'd have scored 3 times that of Panama.
- England scored 13 more than Panama.
- Ghana scored 1 more than England.

How many goals did England score?

Answer _____

Maths Relay

Question 5

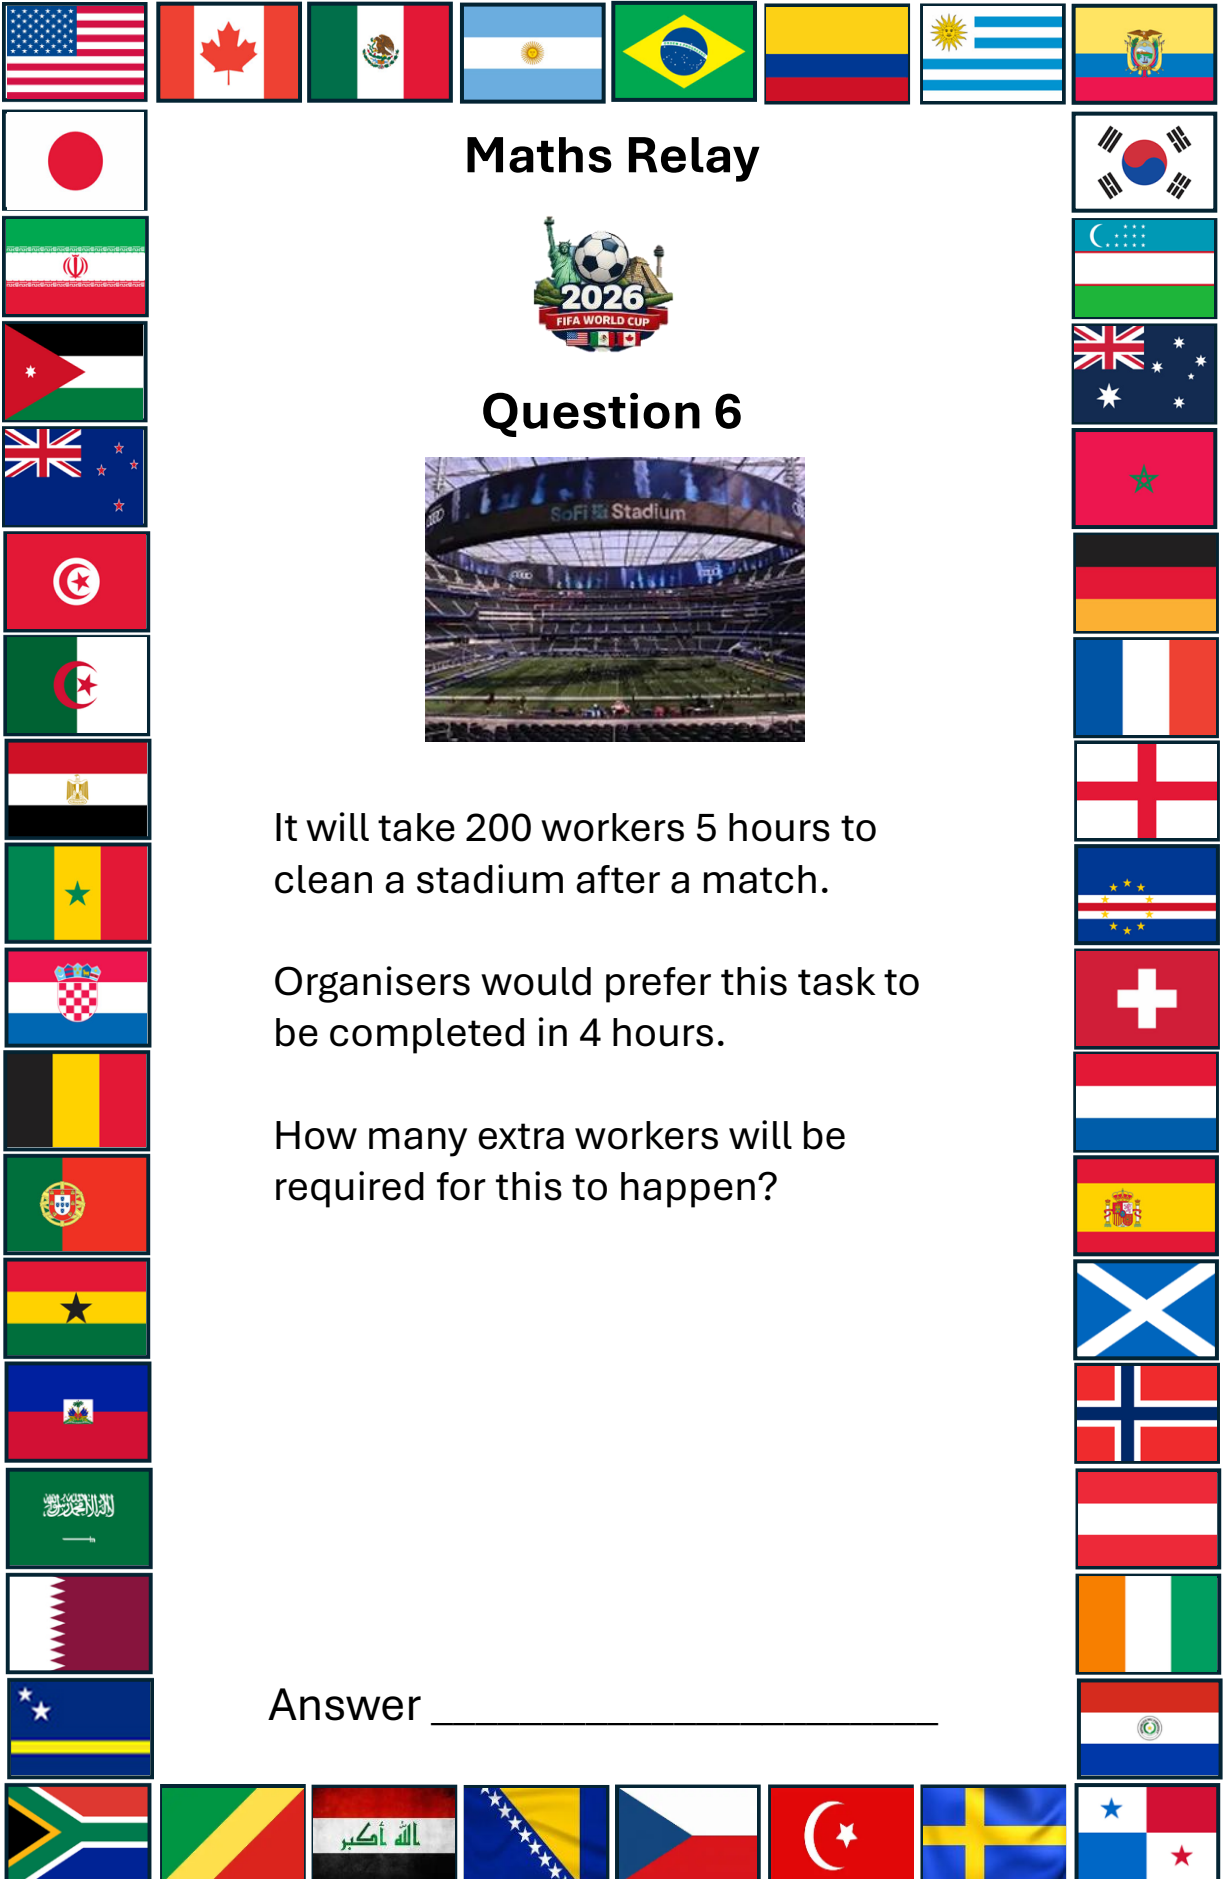

France forward Kylian Mbappe is regarded as the quickest player in the world.

For every 5 sprints he manages in training, Hugo Ekitike can do 4 sprints.

If each sprint is 60metres, how many metres will Mbappe do on a day where Ekitike does 20 sprints?

Answer _____

Maths Relay

Question 6

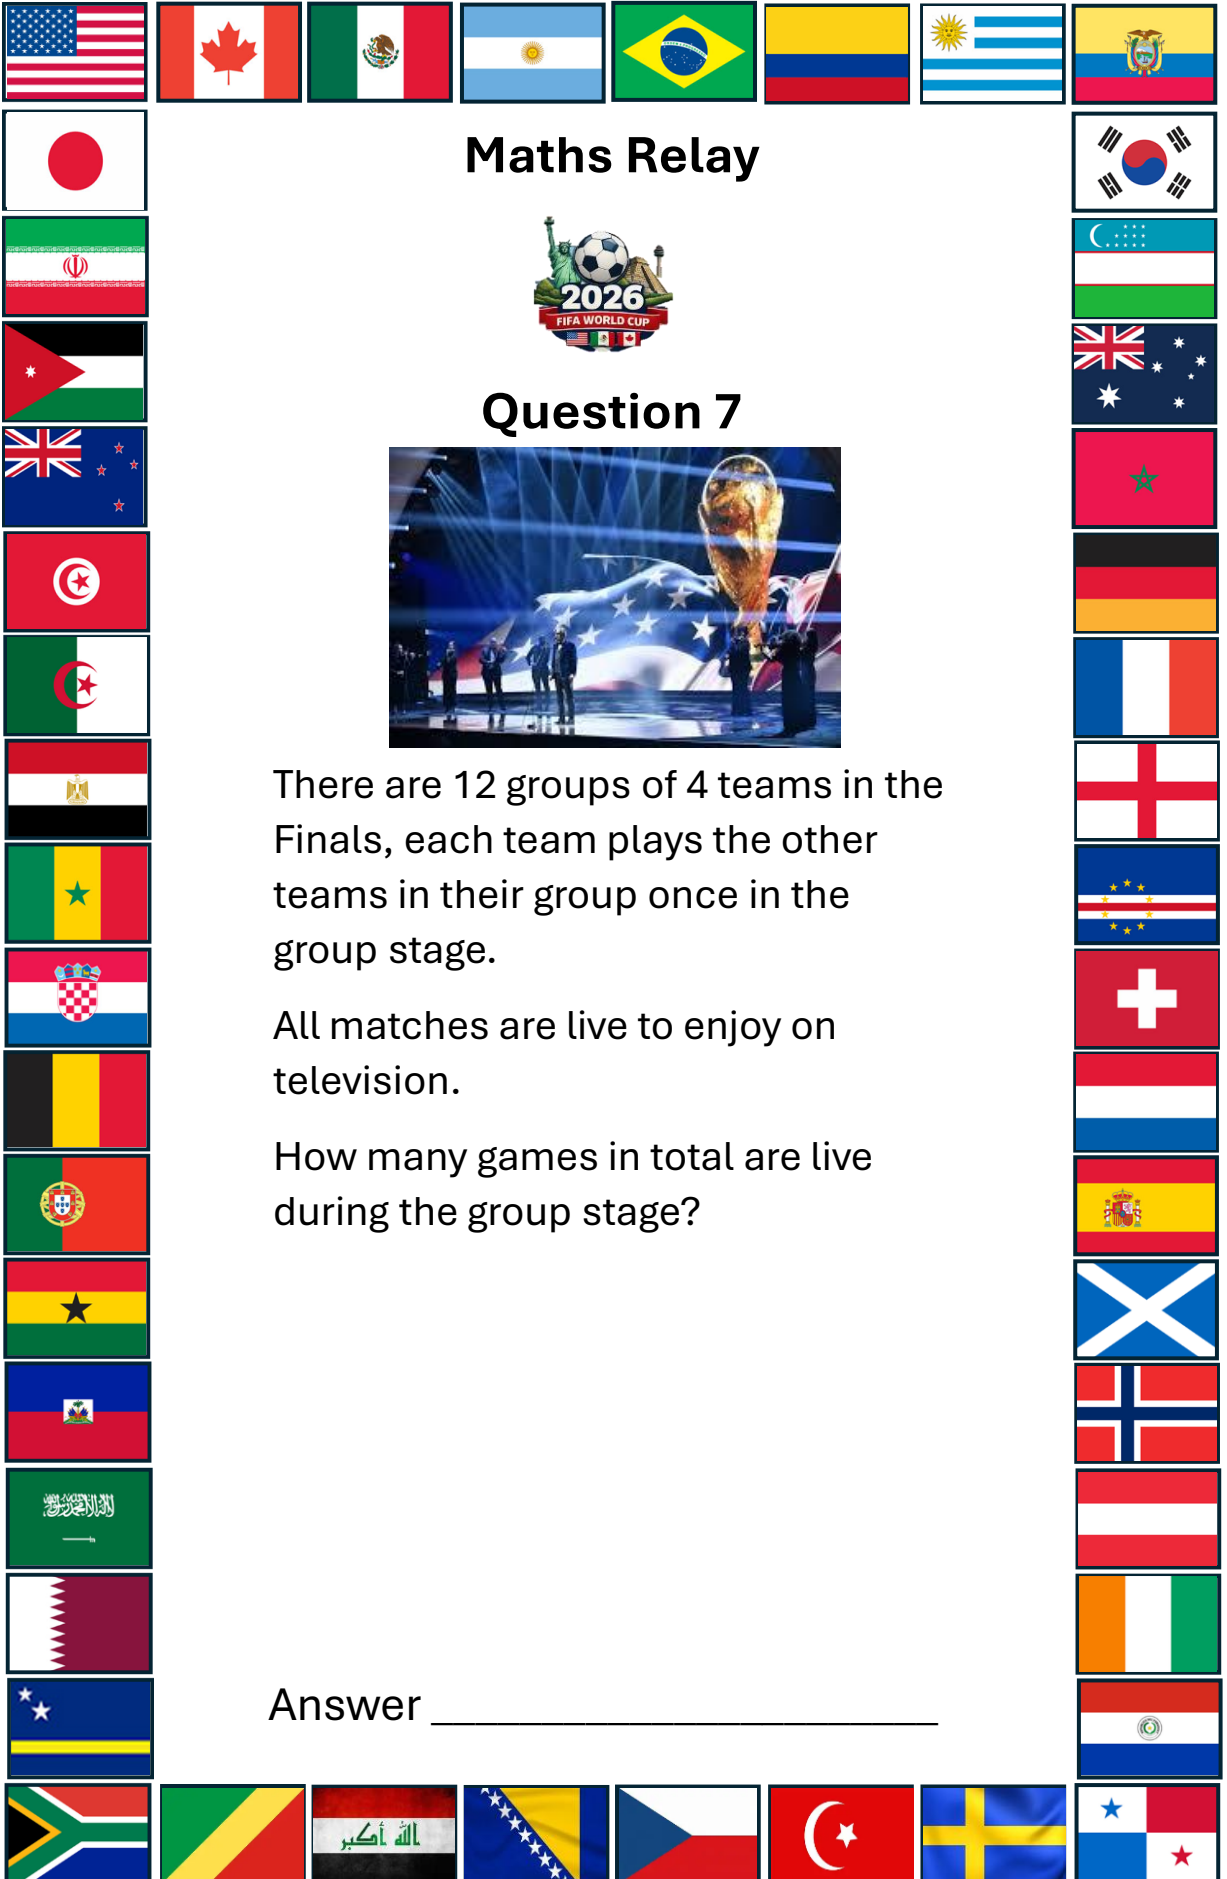

It will take 200 workers 5 hours to clean a stadium after a match.

How many extra workers will be required for this to happen?

Answer _____

Maths Relay

Question 7

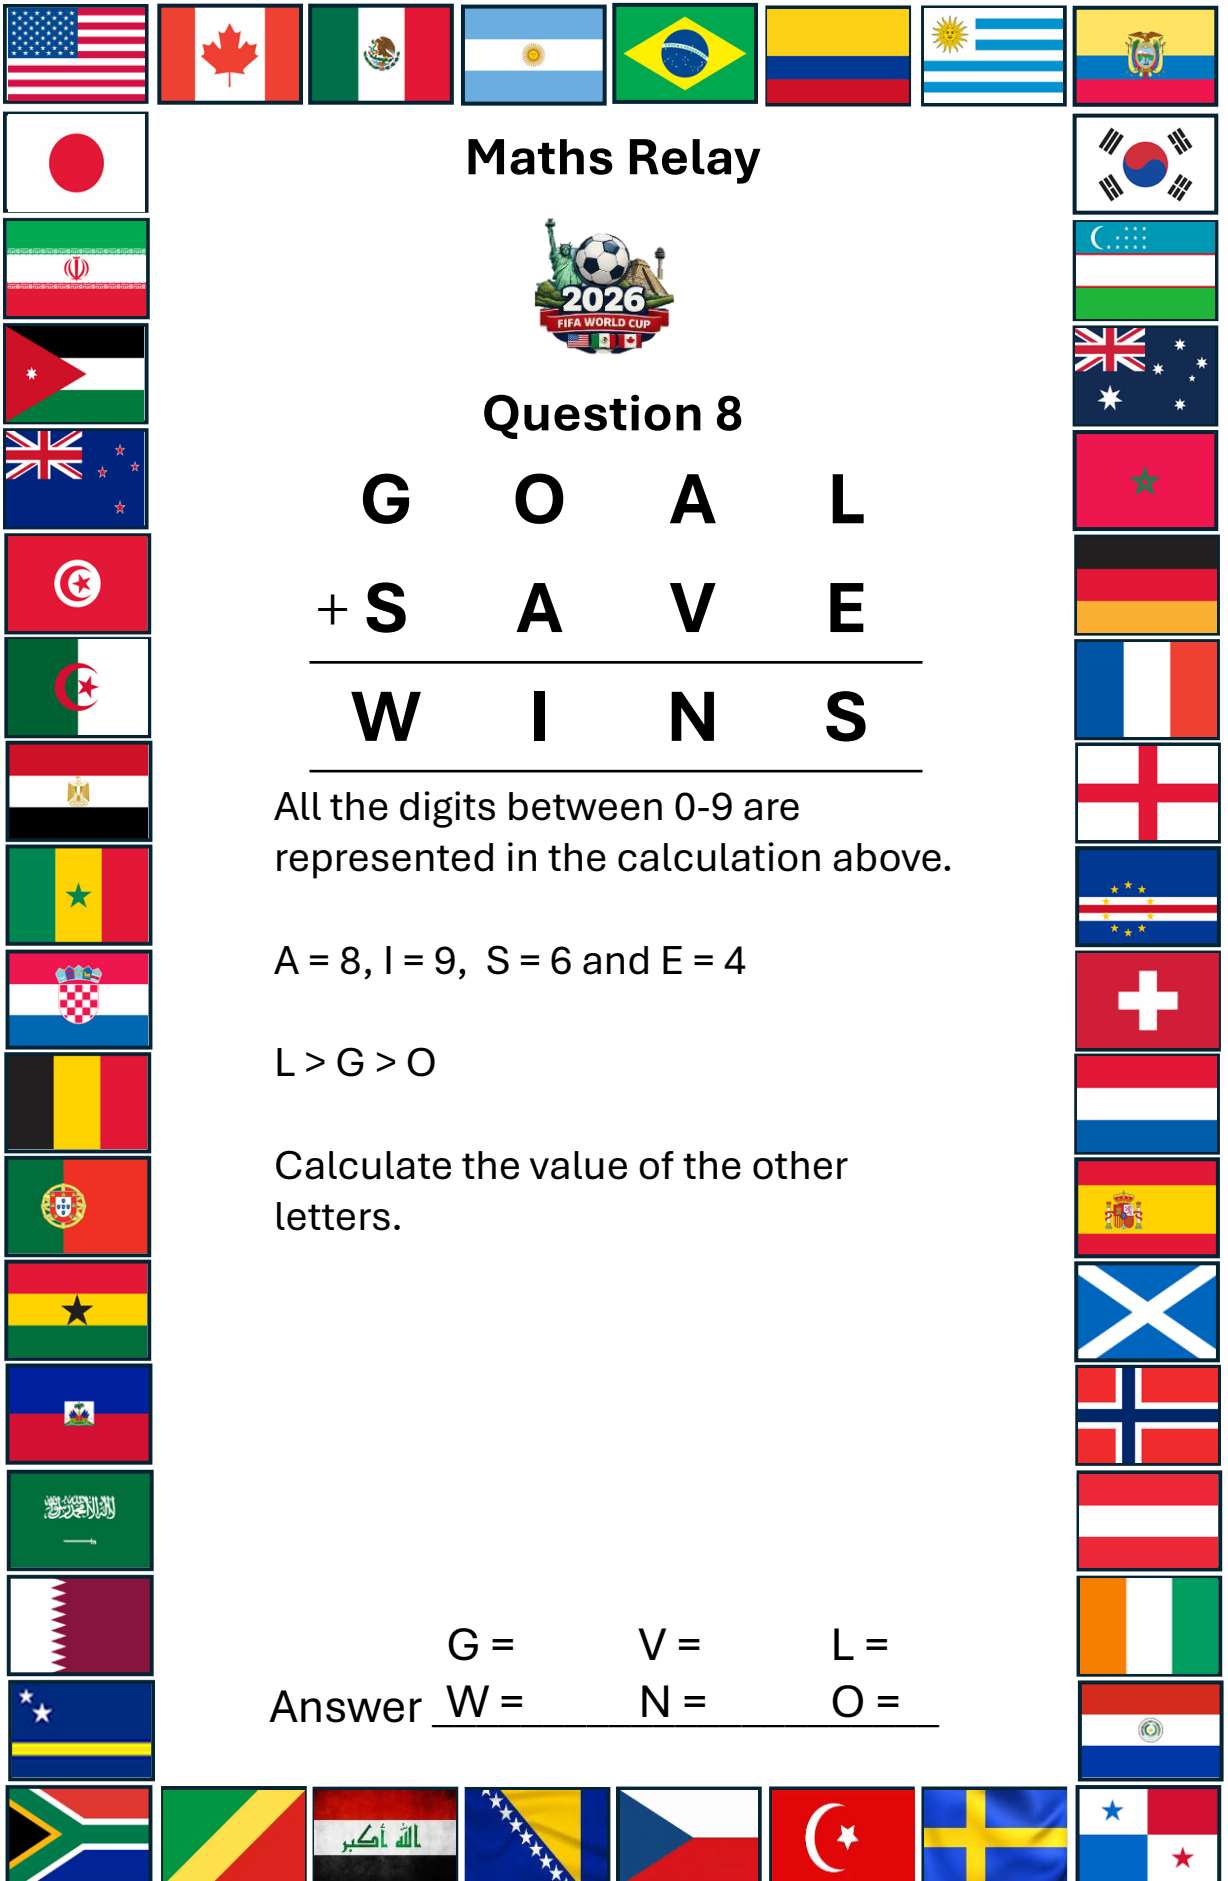

There are 12 groups of 4 teams in the Finals, each team plays the other teams in their group once in the group stage.

All matches are live to enjoy on television.

How many games in total are live during the group stage?

Answer _____

Maths Relay

Question 8

$$\begin{array}{cccc}
 G & O & A & L \\
 + S & A & V & E \\
 \hline
 W & I & N & S
 \end{array}$$

All the digits between 0-9 are represented in the calculation above.

A = 8, I = 9, S = 6 and E = 4

L > G > O

Calculate the value of the other letters.

G = V = L =
 Answer W = N = O =

Maths Relay

Question 9

Answer _____

Maths Relay

Answers

1. 67500 seats
2. Yes, 9 minutes to spare
3. 15
4. 22 goals
5. 1500 metres
6. 50 extra workers
7. 72 matches
8. $G = 1 \quad V = 5 \quad L = 2$
 $W = 7 \quad N = 3 \quad O = 0$
9. $\frac{7}{45}$
10. 4 months
11. 24532
12. 75, 76, 77
13. 7663
14.

1. Harry Kane	2. Jude Bellingham
3. Phil Foden	4. Marcus Rashford
5. Bukayo Saka	6. Declan Rice
15. \$260
16. 45 boxes

Answer _____
